PROFESSIONAL SUMMARY

B.Tech Computer Science Engineering graduate with hands-on experience in data analytics and business analytics through two internships and end-to-end projects. Skilled in SQL, Python, Power BI, Excel, PostgreSQL, and PySpark, with experience in data cleaning, EDA, KPI reporting, dashboard development, and predictive modeling. Built DHEIS, an end-to-end analytics platform achieving 95% model accuracy, and led a team of 10 interns. Seeking an entry-level **Data Analyst** opportunity to apply technical and analytical skills to data-driven business problems.

TECHNICAL SKILLS

Programming & Querying: Python, SQL, Pandas, NumPy

BI & Visualization: Power BI, DAX, Excel, Pivot Tables, Slicers, Matplotlib, Seaborn, Plotly

Databases & Data Engineering: PostgreSQL, Supabase, PySpark, Databricks, ETL/Data Pipelines

Machine Learning & Tools: MLflow, Logistic Regression, Model Evaluation, Streamlit, Jupyter Notebook, Git/GitHub

Analytics: Data Cleaning, EDA, Statistical Analysis, KPI Reporting, Data Storytelling, Dashboard Development

INTERNSHIP EXPERIENCE

Data Analytics Intern | SURE Trust (SURE ProEd)

Feb 2026 – Sep 2026

- Completed hands-on training in **Excel, SQL, Python, Machine Learning, Power BI, and Databricks**, applying skills to data cleaning, EDA, dashboarding, and predictive modeling.
- Independently built **DHEIS**, integrating PostgreSQL, PySpark, MLflow, Power BI, and Streamlit; achieved **95% model accuracy** and earned the **internship completion certificate with a 10/10 GPA**.

Business Analytics Intern → Team Lead | Uptoskills

Feb 2026 – May 2026

- Conducted lead generation and verification and independently developed a **Power BI dashboard** to track activity.
- Promoted to **Team Lead**, overseeing **10 interns**, reviewing Excel/Power BI work for accuracy, resolving blockers, and coordinating task completion and reporting.

PROJECTS

DHEIS — District Health & Education Intelligence System

Python | PySpark | SQL | Databricks | MLflow | Power BI | Streamlit | GitHub | Live App

- Integrated **NFHS-5 health and DISE education data** into a unified dataset covering **602 districts**, using PostgreSQL, Excel, and PySpark on Databricks.
- Designed a percentile-normalized Priority Index and trained a **Logistic Regression classifier**, achieving **95% accuracy and 96% recall** on held-out data; improved recall from **88% to 96%** through data-quality validation.
- Delivered an **8-page Power BI dashboard** and deployed Streamlit application with an AI-powered, evidence-constrained district briefing feature using Groq API.

Bank Loan Data Analytics System

PostgreSQL | Python | SQL | Power BI | DAX | Excel | GitHub

- Built a financial analytics pipeline processing **38,576 loan records across 25 attributes** using PostgreSQL, Python, Excel, and Power BI; wrote **25+ SQL queries** for KPI and MTD/MoM analysis.
- Performed EDA using Pandas, Matplotlib, Seaborn, and Plotly and developed **2 Excel dashboards and 3 Power BI dashboards** with DAX.
- Analyzed loan quality and identified **\$28.2M in credit losses** from charged-off loans, with a **56.9% recovery rate**.

EDUCATION

B.Tech — Computer Science Engineering

Guru Nanak Dev University, Amritsar

CGPA: 8.56/10 | Graduated: 2026

PROFESSIONAL DEVELOPMENT & ACTIVITIES

- **Volunteer — SURE Trust | 2026–Present:** Supporting internship completion certificate-related activities and student certification processes.
- **Life Skill Training & PAWR — SURE Trust:** Participated in regular alternate-Sunday Life Skill Training sessions and completed **15 PAWR (Professional Awareness & Workplace Readiness) sessions** covering communication, teamwork, professionalism, ethics, accountability, and workplace readiness.
- **Data Analytics Job Simulation — Deloitte (via Forage) | Jan 2026**
- **Tech Startup-Connect “GROW” — GNDU | 2023:** Participated in the women entrepreneurship program
